

The [Health Care Climate Council](#) and [Ceres](#) invite  
you to a briefing and conversation on:

## **The U.S. Health Care Sector and Climate Change: Preparing for Extreme Weather and Transitioning to a Clean Energy Economy**

**Thursday, November 2 | 3:30 P.M.  
2103 Rayburn House Office Building**

*Light refreshments will be served*

**Please RSVP to [sspengeman@hcwh.org](mailto:sspengeman@hcwh.org)**

Learn why hospitals across the country are investing in renewable energy and resiliency and how policymakers can support these efforts to protect public health and safety.

*The Health Care Climate Council is a leadership body of 19 influential health systems that have committed to protect public health from the impacts of climate change. Together, the Health Care Climate Council members operate 500 hospitals, employ 1 million people and have total annual operating revenue of over \$165 billion.*

*Ceres is a sustainability nonprofit organization working with the most influential investors and companies to build leadership and drive solutions throughout the economy. Through powerful networks and advocacy, Ceres tackles the world's biggest sustainability challenges, including climate change, water scarcity and pollution, and human rights abuses.*

*Transforming the health sector worldwide to become  
ecologically sustainable and a leading advocate for  
environmental health and justice.*
