

Health Care Climate Council

Health system leaders driving the transformation to climate-smart health care

The Health Care Climate Council is a leadership body of health systems committed to protecting their patients and employees from the health impacts of climate change and becoming anchors for resilient communities. Health Care Climate Council members implement innovative climate solutions, inspire and support others to act, and use their trusted voice and purchasing power to move policy and markets to drive the transformation to climate-smart health care.

19 members collectively represent:

500 hospitals

75 million patients served annually

1 million employees

Over \$215 billion in annual operating revenue

36 states

The Health Care Climate Council is coordinated by the global nonprofit **Health Care Without Harm**. Health Care Without Harm seeks to transform health care worldwide so the sector reduces its environmental footprint and becomes a leader in the global movement for environmental health and justice.

THE IMPACT

of the Health Care Climate Council

The Health Care Climate Council currently has **19 members** representing the interests of **500 hospitals** in **36 states**.

These leaders are already generating or purchasing over **1 million MWh of renewable energy** annually

This is equivalent to

125,000 home's electricity use for one year

When met, collective carbon reduction goals will total nearly **3.6 million metric tons of CO₂e** annually

This is equivalent to

taking over **760,000 passenger vehicles** off the road every year
