healthier hospitals

Global Furniture Group supplies a wide range of products that can help you achieve the Healthier Interiors goal under Healthier Hospitals Safer Chemicals Challenge, Version 2.0.

The goal requires that 30% of the annual volume of furnishings and furniture purchases (based on cost) eliminates the use of formaldehyde, perfluorinated compounds, polyvinyl chloride (PVC), antimicrobials, and all flame retardants.

The following product series can be specified to meet this criteria:

Soft Seating
Adeline
Aubra
Bishop
Chapter
Citi
Citi Square
Coast

Zook Tables

Exceptions: Product will be non-compliant if customer specifies an upholstery that is PVC vinyl or has stain/water-repellent treatment, flame retardants, and/or antimicrobial properties. Specification of wood armcaps/legs, or laminate tabletop/tablet arm (with PVC edging) may also produce a non-compliant option. For clarification or assistance with specifying solutions contacts your Global sales representative.

Customer is responsible for specifying upholstery/options that meets the above criteria, or customer may choose to provide COM.

Furniture described herein meets the Healthier Hospitals goal of the Safer Chemicals Challenge according to the manufacturer. Practice Greenhealth does not verify this information.
