

A PRACTICE GREENHEALTH PROGRAM

HEALTHIER HOSPITALS 2.0

December 2015

Jasper Group and Brands are pleased that our products may contribute toward the Healthy Interiors Goal of the Healthier Hospitals Safer Chemicals Challenge. We are committed to providing a safe and durable product for our Customers and working with them to make sustainable choices. Specified products from Jasper Group must comply with the entire listed criterion below:

FORMALDEHYDE:

Products are tested in accordance to ANSI/BIFMA M7.1-2011 for compliance with ANSI/BIFMA X 7.1-2011 and were modeled to both the private office and open plan or seating scenario using the emissions factor approach. Products are also tested to UL 2821 and are UL 2818 -2013 GREENGUARD certified and comply with ANSI/BIFMA e3-2012, sections 7.6.1 and 7.6.2. Certificates are available at <http://productguide.ulenvironment.com/QuickSearch.aspx>

PER- AND POLY-FLUORINATED COMPOUNDS (PFC)

Many PFC free textiles may be specified without stain and water resistance treatments.

POLYVINYL CHLORIDE (PVC)

Textiles are PVC free unless specified in vinyl and some polyurethanes. PVC edge banding is used for laminate products but is less than 1% of the product weight. Veneered products contain no PVC.

ANTI-MICROBIALS

Textiles may be specified anti-microbial free. Caseloads contain no anti-microbials unless specified by the Customer.

FLAME RETARDENTS (FR)

FR are not added to surface finishes or plastic products unless specified by the Customer. Textiles are FR free unless specified to meet CAL TB 133 or are select vinyl and polyurethanes that may contain FR.

Please note the following:

- Compliant COM are the sole responsibility of the Customer
- Additional information may be found at www.healthierhospitals.com
- Jasper Group worked with our suppliers to determine compliance
- Electronic components of furnishings and furniture are exempt
- Additional information and guidance can be obtained by contacting Jasper Group Customer Service at orders@jaspergroup.us.com

“Furniture described herein meets the Healthy Interiors goal of the Safer Chemicals Challenge.

Practice Greenhealth does not verify manufacturer information.”
