Products compliant with the Healthier Hospitals Safer Chemicals Program

Healthier Hospitals is a program of Practice Greenhealth that aggregates health care demand around a set of concrete, achievable sustainability goals. For more information, please see the Healthier Hospitals website: http://healthierhospitals.org/.

DEHP & PVC Awareness in Healthcare

More than four decades ago, B.Braun recognized the environmental and patient risks posed by products containing PVC and DEHP. Medical devices containing these chemicals pose potential health hazards to people during medical care and to the environment during waste disposal. As a result, B.Braun was the first medical device manufacturer to remove these harmful substances from many of its products, eliminating PVC and DEHP from IV solution containers, IV sets and IV Catheters. Visit www.bbrauncares.com for more information.

Products listed meet the Healthier Hospitals PVC and DEHP Reduction Goal of the Safer Chemicals Challenge.

B. Braun PVC/DEHP-Free Product Offerings	Types	Examples	More Information
Irrigation Solutions	Plastic Irrigation Container, Flexible Container	Sodium Chloride, Sterile Water, Lactated Ringer, Ringers, etc	http://www.bbraunusa.com/products.html?id=00020743040000000396
