Healthier Hospitals Compliant

Durfold is focused and committed to providing our products to the healthcare market while adhering to the axiom “first, do no harm”. As a result, we fully support the efforts of the Healthier Hospital program and its invitation for manufacturers and health care organizations to partner in building a better business model through a reduction in health and environmental impacts.

The goal of Healthy Interiors is to ensure that 30 percent of the annual cost volume of furnishings and furniture purchases must eliminate the use of targeted, hazardous chemicals and to meet this challenge Durfold is pleased to present the enclosed products. These products meet the requirements of the Health Care Without Harm’s Healthy Interiors criteria, v2.3 and are free of formaldehyde, per- and poly-flourinated alkyl substances (PFAS), polyvinyl chloride (PVC), antimicrobials, and all flame retardants.

CTB-133 compliance option is not available and Durfold accepts no responsibility for COM fabrics. Product compliance is contingent on customer’s specified fabrics. Additional information regarding the Practice Greenhealth’s Healthy Interiors goal may be found at www.HealthierHospitals.org.

Furniture/fabric/products described herein meet Health Care Without Harm’s Healthy Interiors criteria, v2.3 according to the manufacturer. Health Care Without Harm and Practice Greenhealth do not verify this information.

Products that meet the Healthier Hospitals Safer Chemicals Challenge include:

PRODUCT ORDERING GUIDANCE

General Considerations:
Fabrics are to be specified by Customer. Customers are responsible for specified fabric's chemical content and performance. Durfold reserves the right to change materials without consumer notice. However, product declarations will be updated prior to any changes. All seating products listed have been evaluated and reported as upholstered with silicon, rubber-based textiles. Products may contain plastic components that consist of ABS, nylon or polyolefin/polyurethane materials.

Product-specific notes:
1. No flame retardant performance or CTB-133 compliant
2. No antimicrobial textiles or finishes
3. No vinyl textiles
4. No plastisol armcaps
5. No wood armcaps
